

Software version control in simulator/lab

QA24

2.2 Development Cycle and Sprints

- Coding + testing:
 - Code according to established standard
 - Test as frequently as possible while coding.
 - Check in: Daily update version control system to avoid losing valuable working hours

QA24-2

2.3.1 Naming of New Versions in OctoPlant

Ref	Version type	Description
	Local version	During software development, before system integration.
	Internal release	Software "released internally" whenever downloading to PLC while testing system integrations.
	Official Release	Software released in SAP EasyDMS to rig, simulator or lab

Change history	Jobs	Details
Version	Username	Changes
22 (1.14)	kvaerner-no\134008 [Vatne, Espen Bessegen]	RELEASE v1.14 CCN 389, Drillers Assist
21	kvaerner-no\134008 [...]	INTERNAL v1.14 CCN 389, Drillers Assist
20	kvaerner-no\134008 [...]	INTERNAL v1.13 CCN 389, Drillers Assist
19	kvaerner-no\134008 [...]	INTERNAL v1.12 CCN 389, Drillers Assist
18	kvaerner-no\134008 [...]	DEVELOPMENT CCN 389, Drillers Assist
17	kvaerner-no\134008 [...]	INTERNAL v1.11 CCN 389, Drillers Assist
16	kvaerner-no\134008 [...]	DEVELOPMENT CCN 389, Drillers Assist
15	kvaerner-no\134008 [...]	DEVELOPMENT CCN 389, Drillers Assist
14	kvaerner-no\134008 [...]	DEVELOPMENT CCN 389, Drillers Assist
13 (1.10)	kvaerner-no\134008 [...]	RELEASE v1.10 CCN 367, optiWOB
12	kvaerner-no\134008 [...]	INTERNAL v1.10 CCN 367, optiWOB
11	kvaerner-no\134008 [...]	INTERNAL v1.09 CCN 367, optiWOB
10	kvaerner-no\134008 [...]	DEVELOPMENT CCN 367, optiWOB

- Internal release: software version control in simulator/lab when system testing is started (e.g. DEAL/SZMS/CADS) or decided by project/DCMS manager
- When a developer hand over the simulator/lab to a tester or another developer, online software shall be available in octoplant as a version
- Updating software shall increase the minor version and be stored as a new version in octoplant

It is important that software version number (minor version) is increased when software changes is done during system testing phase, so everyone knows what software versions the testing is done at.

Online software shall be available in octoplant for test persons or other developers for monitoring if required for testing/fault finding.
